THANKFULNESS

See how many things you can think of that you are thankful for. Write as many things as you can think of, or as you can fit on this page. Review them with everyone else in the car when you are finished.

This image shows a blank sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There are approximately 20 lines visible on each side of the central vertical fold. The paper appears to be a standard notebook or composition paper.

Clementine

{ CHORUS }

In my dreams she still doth haunt me,
Robed in garments soaked in brine;
Though in life I used to hug her,
Now she's dead, I draw the line.

CHORUS

Oh my darling, oh my darling
Oh my darling, Clementine
Thou art lost and gone forever,
Dreadful sorry, Clementine.

Light she was and like a fairy,
And her shoes were number nine,
Herring boxes without topses
Sandals were for Clementine

{CHORUS}

Drove she ducklings to the water
Every morning just at nine,
Hit her foot against a splinter
Fell into the foaming brine.

{CHORUS}

Ruby lips above the water,
Blowing bubbles soft and fine,
But alas, I was no swimmer,
So I lost my Clementine.

{CHORUS}

Then the miner, forty-niner
Soon began to peak and pine,
Thought he oughter jine he daughter,
Now he's with his Clementine.

What is your favorite movie?
Why?

Do you consider yourself a person that cries often? What types of things make you cry?

What is your favorite thing about yourself?

List five things that you appreciate about someone in the vehicle.

What is the nicest thing a friend has ever done for you?

How many words can you make from the letters in the word above? Write down as many as you can think of. See who gets the most words.

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

Paper Battleship

Use the game board below to play against another person in the car.

RULES

Two players play the game. At the beginning of the game, each player places their ships on the "Your Ships" board. Use the letters in the "SHIPS" key below to indicate each ship. The ships can be placed either horizontally or vertically. Each ship gets a specific number of consecutive letters to identify it on the board.

Once the ships have been placed on the board, each player will take turns calling out a spot on the grid using a number/letter combination (eg. B4). If the other player does not have a ship at that location they call out "MISS" and the first player marks an "I" in that cell to indicate a miss. If there is a ship at that coordinate, then the other player calls out "HIT". In this case, the first player would mark an "X" in that cell to indicate that part of a ship is in that space.

When a player hits all of the cells for a ship, then the other player has to report that their ship was "SUNK".

It is useful for a player to keep track of the hits and misses of the other player by marking those shots on his/her own "Your Ships" board.

The first player to sink the other player's ships wins the game.

License Number Bingo

GAME RULES:

Each person in the car chooses a different page in their passport that has a bingo card. During the road trip, as the players spot numbers on license plates that are on the card (eg. License Plate: 315N WPR would complete a square: 31 or 15 on your card). When they find the number, they mark off that square on the bingo card. The first person to get a full row completed (either horizontally, vertically, or diagonally), they are the winner. If the scenic route is not providing the amount of items quickly enough, a non-player may shout out different numbers to help the game move along.

Odds & Evens

One person is designated the "odds" player while the other is labeled "evens". Players hold one hand out in front of them and count together to three (sometimes chanting "Once, twice, thrice, SHOOT!" or "One, two, three, SHOOT!"). On three (or "shoot"), both players hold out either one or two fingers. If the sum of fingers shown by both players is an even number (i.e. two or four) then the "evens" player wins; otherwise the "odds" player is the winner. Since there are two possible ways to add up to three, both players have an equal chance of winning.

Use the scorecard below to keep track of the winner of each round.
